THE MODERN COUNTRY NEWS-PAPER.

Sitting by my fireside cozy and warm, After lighting my lamp with a taper, Drawing my easy chair nearer the light, I picked up a country newspaper.

Hoping to find an item of news, But was doomed to disappointment, For the very first thing that met my glance Was "Bucklen's Wonderful Ointment."

Still hoping to find an item or two, I glanced further down its pages, And was informed that if I had catarrh There was no remedy like "Dr. Sage's."

I was informed still further along If I had a grain of scum or gumption, That if my lungs were weak must take Piao's Cure for Consumption.

After a line or so we were advised (Below an item of two of trade and barter) To use those "Little Liver Pills" Put up and sold by "Dr. Carter."

The ladies all were next informed (How charming we men think 'em) To take that remedy known far and wide. Put up by "Miss Lydia Pinkham."

The next I find still further down Is "Pierce's Favorite Prescription," Followed by an almost endless list Of glowing words in its description.

Ah! there's an item, thinks I at last, "A recipe for making fritters," But followed in the next line by An ad of "Brown's Electric Bitters."

We were next informed Miss Lucy Jones Was visiting Miss Julia Stirrup Then mothers were told if baby cried To give him "Winslow's Soothing Syrup."

So the thing went on from page to page In glowing terms and fancy flashes, To lit my pipe to sooth my nerves, And flung the paper in the ashes.

For the Boys.

Once a boy was walking along the seashore when he saw a very beautiful shell. But he had his hands full at then, and he said: "I'll pick it up when I come back." When he came back after a while he could not find it. The waves had washed it out into the sea. Sometimes a boy, girl, man or woman says: "I'll not do this kind of thing today, I'll leave it until to-morrow. But by to-morrow the chance of doing it is gone."

GREENBACKS Government Money.

Close of our Civil War in 1865, the greenback appeared in the London Times following:

"If that mischievous financial policy which had its origin in the North American Republic during the late Civil War in that country, should be inducted down to a fixture, that government will furnish its money without cost. It will have all the money that is necessary to carry its trade and commerce. It will be prosperous beyond precedent in the history of civilized nations of the world. The brain and wealth of the world will go to North America. THE GOVERNMENT WILL BE ENJOYED OR IT WILL BE DEFEATED BY EVERY MONARCHY ON THE GLOBE."

See famous Hazzard circular, to lists in New York, and the Buell circular to United States Bank, emanating from London, and the pulchritudinous fund raised in England and Germany, estimated at \$10,000,000, were the agents that secured the closing of our mints against the "walk into my parlor" policy of England, during and since the Civil War, is the latest evidence of the English Diplomacy in shaping the policy of the United States Government.

Withstanding the famine price of the Spanish War, and fabulous expenditures of money by our government during the past year, gold has increased in value eleven per cent. Other values decreased in the proportion.

A thorough understanding of any question, or silver issue, Cincinnati Enquirer has uniformly evidenced of its ability to teach, and produce all facts and figures in a paper that ought and read by all classes with pleasure and profit.

RESIGNATION

OF JUDGE JOHN W. BARR

Of the United States Federal Court.

INTERESTING COURT DATA.

The resignation of Judge John W. Barr of the Federal Court was announced from the bench in Louisville on Monday, February 20, 1899.

There have been many expressions of regret from practitioners at his court. His resignation had been sent to President McKinley ten days previous to the announcement. He had passed the age limit, 70 years, and had served 19 years. For some months his health had been somewhat feeble.

The appointment of a Judge is for life or until removed from cause. He retires on full pay, receiving \$5,000 annually until death.

Judge Barr was the seventh United States Judge of Kentucky since the formation of the State and the third since the court began holding sessions in Louisville. He was appointed by President Hayes on April 16, 1880 while a native of Woodford county. He is seventy-two years old.

Sessions of the Court are held twice a year in Louisville, Covington, Frankfort, Paducah and Owensboro. At all of these places and throughout the State Judge Barr has been widely popular. Never a whisper has been raised against his private or official acts. The ermine of his judicial robes has never been stained by a taint of political partisanship. Just always, he tempered justice when he could with mercy.

He is a good man and the people of Kentucky will miss him.

The United States Court of Kentucky was first established September 24, 1789. It was then known as the Kentucky district of Virginia. Sessions were held at Harrodsburg.

Two days after President Washington appointed the Hon. Harry Innes as Judge. He was born in Virginia, but was reared in Kentucky. He held the office until 1816.

His successors were as follows:

The Hon. Robert Trimble, appointed January 13, 1817. Resigned in 1826 to become a member of the Supreme bench.

The Hon. John Boyle appointed October 20, 1826. Died in 1834.

The Hon. Thomas B. Monroe, appointed March 18, 1834. Resigned in 1861 to enter the Confederacy.

The Hon. Blaine Ballard, appointed October 16, 1861. Died June 29, 1879.

The Hon. William Hays, appointed September 6, 1879. Died in March, 1889.

Judge John W. Barr appointed April 16, 1889.

Gladstone's Dying Advice.

What Mr. Gladstone said to Mr. Rosebery on the latter's visit a short time before the great statesman died is not accurately known. Dr. Clark, founder of the Christian Endeavor movement, however says:

"On excellent authority I have been told that when Lord Rosebery, his successor in the leadership of the Liberal party of Great Britain, called upon him for the last time, the dying leader said most impressively to the younger statesman as the latter left his bedside, 'Rosebery, take care of your soul.'"

"His whole grand life repeats the message to every man young and old, 'Take care of your soul; O, take care of your soul.'"

Mining Statistics.

Advance statistics from the forthcoming report of State Mine Inspector G. W. Stone show that the coal output for Kentucky in 1898 was 3,542,132 tons, the largest in the history of the State. The year closed with ninety-five companies operating, one hundred and twenty-eight mines, and employing eight thousand four hundred and eight persons.

Representative Lewis, of Ohio, has introduced a bill for the revival of the ranks of Admiral and Vice Admiral, the former for Rear Admiral Dewey and the latter for Rear Admiral Schley, and providing for the promotion of Schley to follow upon the retirement of Dewey.

Regardless of Age.

The kidneys are responsible for more sickness, suffering and deaths than any other organs of the body.

A majority of the life-afflicting people to-day is traceable to kidney trouble. It prevails all classes of society, in all climates, regardless of age, sex or condition.

The symptoms of kidney trouble are unmistakable, such as rheumatism, neuralgia, sleeplessness, pain or dull ache in the back, a desire to urinate often day or night, profuse and scanty supply.

Uric acid, or brick-dust deposit in urine are signs of clogged kidneys, causing poisoned or germ-filled blood. Sometimes the heart acts badly, and tube casts (wasting of the kidneys) are found in the urine, which if neglected will result in Bright's disease, the most dangerous form of kidney trouble.

All these symptoms and conditions are promptly removed under the influence of Dr. Kilmer's Swamp-Root. It has a world wide reputation for its wonderful cures of the most distressing cases.

No one need be long without it as it is so easy to get at any drug store at fifty cents or one dollar. You can have a sample bottle of this wonderful discovery, Swamp-Root, and a book telling you all about it, both sent to you absolutely free by mail. Send your address to Dr. Kilmer & Co., Binghamton, N. Y., and kindly mention that you read this liberal offer in the MT. STERLING ADVOCATE.

Premature Burial.

John Clark, an inmate of the Soldier's Home in Dodge City, Kansas, is said to have been buried alive for two days. He had been ill with typhoid fever. The doctor in attendance pronounced him dead, and he was buried in the soldier's cemetery with military honors.

Some of his comrades declared that they did not believe Clark was dead. One soldier named Hazen, persisted that Clark had been buried alive, and demanded that his body be taken from the grave. The doctor was recalled and asked what he thought about the case.

After consultation it was decided to open the grave. When the coffin was opened it was seen Clark's hands were not in their former position and there was moisture upon the glass above his mouth. Stimulants and careful nursing turned the tide for Clark and death was robbed of its victim.

When Clark was finally restored to consciousness he said that he had been half conscious of all that happened and knew that he had been buried alive.

He was buried on Wednesday and taken out on Friday.—Boston Herald, December 26.

Great Loss of Lambs and Sheep.

The cold weather played havoc with the lamb crop in Boyle county. It is believed that on an average at least one half of them were killed. John Harris lost one hundred and seven. J. H. Baughman lost one-half of his and H. N. Mitchell is reported to have lost thirty out of forty. This will give an idea of the situation.—Danville Advocate.

Forty-eight of the fifty insurance companies indicted at Georgetown for conspiracy to raise rates were convicted. The cases will be appealed.

THRASHING

GIVEN TO THE FILIPINOS,

Who Had Been Using Bushwhacking Tactics.

INTERESTS OF THE ORIENT.

Brig. Gen. King on the 20th inst., administered a salutary lesson to the natives who had been peppering away at his left night and day for a week past, with the result that at 6 o'clock all was quiet. Gen. King sent two companies of the First California Infantry to drive out the enemy from the ravines between Guadalupe and San Pedro Macati, which they did effectually.

In the meantime Capt. Scott's battery of the Sixth Artillery shelled the Guadalupe Church, where a considerable body of insurgents had taken a stand. At the same time two companies of the First Washington Infantry routed a large force of Filipinos on the opposite side of the river.

Our losses were: Private John F. Adams of Company M and Private A. Riehart of Company K, First Washington Infantry, killed, and two Californians wounded. The number of the enemy slain was fully fifty, twenty of their dead having been buried by our men.

James F. Cassidy, of Company K, First California Infantry, was killed by a Filipino sharpshooter, while scouting.

The transport Newport arrived at Manila from Iloilo. She brought the news that Gen. Miller still holds Jaro and Molo, where there has been some skirmishing during the nights. The insurgents have a force of 2,000 men armed with belos at Santa Barbara. The stars and stripes were voluntarily raised over Negros Island by the inhabitants after the capture of Iloilo by the Americans under Gen. Miller.

Four native commissioners arrived at Manila on the 20th to offer allegiance to the inhabitants and claim American protection. Negros is one of the larger islands of the Philippine situated South of Panay and lying between that island and Mindanao, the second largest island of the group. Its principal towns are Jimanilla, Dumaguete.

Death Among Sheep.

A result of the intense cold spell that closed last week the most disastrous in any respect is the large number of sheep and lambs that were lost during the cold period, and the reports come from every part of the county and country. As a fair illustration of the reports that have come to this office of the death rate, Nelson and Wm. Gay lost 48 out of 198 ewes and a number of lambs, and Wm. Simms lost 200 out of 1100 ewes and a corresponding number of lambs. In the West the loss is even greater.—Winchester Sun.

There have been many lambs lost in this, Bath and Bourbon counties. In some flocks from one-third to one-half of lambs.

ARE YOU A DEMOCRAT?

"An old adage reads: 'There is a place for everything,' and for everything to be in its place, the LOUISVILLE DISPATCH should find a place in the home of every DEMOCRAT in the SUNNY SOUTH. The Dispatch is the people's paper, owned by the people, and is always ready to fight for the cause of the people. IT STANDS SQUARELY ON THE CHICAGO PLATFORM, without the aid or constant of the Gold Bug Monopolies, and a fair comparison of its news service (now being furnished over leased wires by the New York Sun, the Chicago Inter Ocean and the Northern Press Association) with that of any other paper, will fully verify its motto, 'If you see it in the Dispatch it's so, and if it's so it is always in the Dispatch.'"

The Dispatch also has a staff of over 200 active correspondents in the South, and will POSITIVELY GUARANTEE MORE THAN DOUBLE THE SOUTHERN NEWS of any other Louisville paper. Get the Dispatch; it gives the news and tells the truth about it.
